

Michael Torres

Frontend Developer

WORK EXPERIENCE

FULLSTACK DEVELOPER

Freelancer Italy & Remote | 2022 - present

- Built and delivered modern, responsive websites for both local businesses and international clients, adapting to different needs and goals.
- Developed fullstack solutions using React, Vue, Nuxt, Node.js and headless CMS (Prestashop, WordPress) with clean architecture and maintainable code.
- Collaborated directly with clients to translate business goals into user-friendly digital products, often leading design and UX choices.
- Focused on high-quality UI/UX: crafted design-driven interfaces with smooth animations, responsive layouts, and fast performance.
- Helped clients increase conversion rates and engagement, up to +35% in sales and +50% faster load times through design and code improvements.

FRONTEND JUNIOR DEVELOPER

WordPress E-Commerce Shop | 2021 - 2022

- Managed the full e-commerce website lifecycle using WordPress, from design to launch.
- Improved product visibility and traffic through targeted SEO and UX enhancements.
- Designed and edited content to align with brand identity and user expectations.
- Collaborated with developers to ensure smooth project delivery.

E-COMMERCE WEB DEVELOPER

"BabyLuxuryShop" Palermo | 2020 - 2021

- Developed and maintained the e-commerce platform with a focus on performance and UX.
- Boosted homepage loading speed by 21%, improving user engagement and retention.
- Improved user flows and interface design, resulting in higher usability and better conversion rates.

EDUCATION

CS50 WEB PROGRAMMING -

Harvard University | 2020

RESPONSIVE WEB DESIGN -

FCC Coding School | 2023

PERSONAL PROFILE

I'm a developer with a strong design mindset and a deep focus on UI and UX. I build responsive, animated interfaces and bring design to life through clean, modular code. I also collaborate closely with designers and enjoy leading front-end decisions to ensure a smooth and consistent user experience.
