WORK EXPERIENCE

Front-end Web Developer

2022- 2024

Freelancer - Personal Projects

- Led the development and implementation of **website design** choices that resulted in a **+20%** increase in product click-throughs and a **15% increase in sales** with multiple customers.
- Proficient in **HTML, CSS, JavaScript**, and modern front-end frameworks like **React**, I excel at crafting **responsive** and **performant** web applications collaborating with clients and personal projects in [my Github](#).

E-Commerce Web Developer

2021-2022

E-Commerce Shop "Luxury Boyhood"

- Developed and maintained** e-commerce platforms from concept to implementation.
- Implemented SEO strategies that **improved website traffic by 15%**, enhancing online visibility and positioning the shop.
- Optimized website **performance** and product page design, resulting in a **30% increase in performance**.

Web Developer / Content Editor Wordpress

2020-2021

WordPress E-commerce Car Key-Shell Shop

- Managed a complete WordPress e-commerce platform for online key sales, from **design to implementation with HTML & CSS, JS**.
- Revamped **product descriptions**, optimizing titles and content for **improved user experience** and search visibility.

PROJECTS

"Poké Quiz" Web Quiz Game

[Github Repo](#)

Personal Project Github

[Try Live Demo!](#)

- Developed a **responsive** Pokémon quiz app utilizing **React** and **Tailwind CSS** that challenged users to identify Pokémon
- Leveraged the **PokéAPI** to **dynamically fetch Pokémon data**, creating an interactive and engaging **user experience**.

"PokéFilter" Web Application

[Github Repo](#)

Personal Project Github

[Try Live Demo!](#)

- Designed and implemented an intuitive **Pokémon filtering web application**, providing users with a streamlined experience to discover their favorite Pokémon.
- Integrated the **PokéAPI** to power **real-time search** and **filtering** by name and type, **all built with JavaScript**

Apple Like Website

[Github Repo](#)

Commissioned by Client

[Try Live Demo!](#)

- Crafted a **single-page application** (SPA) in pure **JavaScript**, pushing the boundaries of **web design** with an Apple-inspired aesthetic.
- The experience is completed by a carefully curated animated background that complements the **design** seamlessly.
